WEDNESDAY, JANUARY 26.

A bill was introduced in the Illinois legislature Monday prohibiting the marriage of jail and prison inmates.

Since January 1, 1881, \$730,000.00 of the public debt of the United States has been paid off. And there is plenty of surplus left.

Ex-Governor Bates was today elected United States senator by the Democrats in the Tennessee legislature to succeed Senator Jackson, whose term expires with the present congress.

Mr. Carroll E. Smith, editor of the Syracuse Journal, is talked of as the successor of Frank Hiscock in the house. If hard work, rather than talk, is what is wanted, Mr. Smith would fill the bill.

Anybody can tell now, says the Chicago Journal, what Morrison would do if he could and should get the office of railroad commissioner under the interstate commerce law. He would strike for a "horizontal" reduction of railroad rates the first thing.

The oldest person in France, perhaps in the world, is said to be a woman who lives in the village of Anberive, in Brittany. She was born March 16, 1761, and is therefore, 125 years old. The authentic record of her birth is to be found in the parish register of St. Just de Clair, in the Department of the Isere.

At the close of business on Saturday Chicago elevators contained 13,402,167 bushels of wheat, 5,685,051 bushels of corn, 1,008,738 bushels of oats, 151,618 bushels of rye and 231,708 bushels of barley, making a grand total of 20,530,172 bushels, against 20,232,961 bushels a week ago, and 17,825,030 bushels at this period last year.

Dr. O'Reilly, of the army, attended President Cleveland in his recent illness, and the Washington society reports now dress him up in reports of society events as "physician to the president." When he is not on hand and his wife is that lady is described as "the wife of the physician to the president." Recently the doctor introduced the call to Mrs. Cleveland, it being the first time a family physician has officiated in this position which is much sought by army officers. The doctor is very popular.

The Philadelphia Times calls attention to the fact that President Cleveland's message in regard to the celebration of the centennial of the constitution contains 294 words, comprised in four sentences. The first sentence contains 78 words, the second 16, the third 29, and the fourth no less than 171 words. "Anybody," it remarks, "can write a sentence of 171 words, but not every one can write a sentence of that length that shall be entirely grammatical and entirely clear. The president has done this, and apparently without effort."

Burdette: Why, anybody ought to know that it's the shortest haul that costs the most. It isn't necessary to convene congress to tell us that. (It isn't necessary to convene congress to tell us anything we don't know for that matter; it never does anything of the kind.) You see I am sitting in a railway parlor car down in Maine writing a postal card to a friend in Oregon. Now, if I can get that card to the mail car only seven car lengths ahead of me, the government will carry it 3,000 miles for one cent. That is the long haul. But it costs me a quarter to get the porter to carry it to the postal car. That's the short haul. Then the porter loses it on his way or forgets all about it. That's the burlesque. And there you have the whole transportation problem in a nutshell.
